

NIHMP Social medicine projects

GYNAECOLOGY

After **thorough gynaecological examination**, the NIHMP gynaecology department offers:

- **counselling** on reproductive health and conscious motherhood
- **free implant** of contraceptive intrauterine device or under-skin implant, according to the opinion of the doctor
- **possible temporary accommodation** in a Reception House in Rome for fragile pregnant women

Come to our outpatient department:

- **from Monday to Friday** from **7.30 am** to **12.00 am**
- **Tuesday, Wednesday** and **Thursday** from **2.00 pm** to **5.00 pm** (and then, if needed, take an appointment with the doctor)

Beneficiaries of the project

All fertile-age women from 18 to 49 years old. Women who underwent voluntary interruption of pregnancy, have low social and economic status or belong to communities at risk will be favoured.

DON'T GIVE UP ON YOUR HEALTH
Come to the NIHMP!

The outpatient department is in Rome, **Via delle Fratte di Trastevere, 52**.
