

FACTS BEYOND FIGURES

Communi-Care for Migrants and Ethnic Minorities

4th Conference on Migrant and Ethnic Minority Health in Europe

21-23 JUNE 2012, UNIVERSITÀ BOCCONI, MILAN, ITALY

Università Commerciale
Luigi Bocconi

Thursday, 21 June 2012

PARALLEL 1 A General View of Roma and Sinti Communities 16:30 – 18:30 Room N30

Addiction prevention within Roma and Sinti communities – Project SRAP
Roma people in Italy: hospital like common ground
Sociodemographic and health conditions of the Roma population in Milan
The participatory evaluation of the Andrychów district's operational strategy for the Roma community
Work integrated learning as a tool for Roma empowerment

PARALLEL 2 Children and Adolescents 16:30 – 18:30 Room N31

Emergency Room (ER) visits of children under age one in the province of Reggio Emilia: effects of citizenship and mother's education level
Health status and mortality rates of adolescents and young adults in the Brussels-Capital Region: differences according to nationality of origin and migration history
Medicine use among adolescents: differences between the majority population and Iraqi, Lebanese and Turkish minorities
Type I diabetes among children and young adults in Sweden: the importance of country of birth, socioeconomic position and gender
What are the health promotion needs of refugee adolescents in Europe? A review of the literature

PARALLEL 3 Cross-Cultural Approach 16:30 – 18:30 Room N32

Creating care competences for immigrants: a nursing student's intensive programme
Ethnicity, religion, health and health behaviours: Muslims', Hindus' and Sikhs' self-perceived health status and access to NHS health services in Scotland
Intercultural help with drug addiction (ISH) empowers cultural minorities
Measuring cultural competence - an essential prerequisite towards equitable care for ethnic minority patients
Professional training in the cultural mediation field: emerging specificities of the PASS Project - Emilia Romagna Region

PARALLEL 4 Health Policies and Management 16:30 – 18:30 Room N33

Completeness and consistency: collection and utilisation of patient ethnicity data in primary and secondary care in the United Kingdom
Health inequalities among elderly immigrants in Europe
Policies and services to tackle health inequalities in accessing health services for ethnic-minority women in Italy: fragmentation and innovation. The case-study of Marche region
The health policies for immigrants (regular and not): the sub-national level
Vaccinations for immigrants: health needs and organizational aspects

PARALLEL 5	Health Policies and Management	16:30 – 18:30	Room N34
	<p>2nd phase of the PROMOVAX Project: Development of 'Best Practice Evaluation Tool for Migrant Vaccination' and its utilisation</p> <p>Effectiveness of 'Diabetes Voorkómen'; a culturally tailored diabetes preventive intervention combining health education and physical activity in elderly immigrants in Amsterdam</p> <p>Health personnel views of migrants' access to quality healthcare in Spain</p> <p>Monitoring the health of immigrant population in Switzerland</p> <p>Overlooked occupational diseases among ethnic minorities</p>		
PARALLEL 6	Health Status of Migrant Women	16:30 – 18:30	Room N35
	<p>"DAMAS" project: study on foreign women lifestyle for creation of culturally-sensitive and migration-related tools to promote physical activity and healthy diet. A pilot study</p> <p>A model of home visit for migrant women in the post-partum period</p> <p>Reproductive behaviours of foreign women living in Italy: an analysis on induced abortion data</p> <p>Socioeconomic status, access to care and birth outcomes among black and minority ethnic women in the UK and US: a scoping review</p> <p>The experiences of afghan immigrant women who use maternity services in the UK</p>		
PARALLEL 7	Health Status of Migrant Citizens in Europe	16:30 – 18:30	Room N36
	<p>Cohort profile: older migrants in the longitudinal aging study Amsterdam</p> <p>Is all-cause and cause-specific mortality lower among refugees and immigrants than among native Danes? A historical prospective cohort study</p> <p>Migration, cancer incidence, survival and mortality in Sweden 1961-2009</p> <p>RODAM - Type II diabetes and obesity among Sub-Saharan African migrant populations: dissection of environment and endogenous predisposition</p> <p>Senperforto: determinants for effective prevention and response actions of SGBV perpetration and victimization in the European asylum reception system</p> <p>The health status of migrant women in Italy and in Lombardy: rights, access, opportunities</p>		
PARALLEL 8	Health Status of Migrant Citizens in Europe	16:30 – 18:30	Room N37
	<p>Analysis of reproductive behaviours in Piedmont: comparison between Italian and foreign women. Years 2004-2009</p> <p>Explaining generational differences in ethnic inequalities in child cognitive development: socioeconomic determinants or cultural differences?</p> <p>Improving levels of patient ethnicity monitoring in Lothian, Scotland: is 90% valid coding a feasible target?</p> <p>Some health service utilisation related characteristics of migrants and internally displaced population in Turkey</p> <p>The declining trend in the risk of second time myocardial infarction in Sweden between 1987 to 2007: variation by sex, socioeconomic position, and birth country</p>		
PARALLEL 9	Health Status of Migrants from Latin America in European Countries - COHEMI Network	16:30 – 18:30	Room N38
	<p>Coordinating resources to assess and improve the health status of migrants from Latin America</p> <p>Developing a multi-disciplinary agenda to investigate the health-seeking processes of Latin American migrants in Europe: contributions from the COHEMI network</p> <p>Engaging migrant communities in policy-making processes: insights from the COHEMI programme</p> <p>Latin American migrants in Europe: who are they and how is policy relevant for their health?</p> <p>The care of neglected diseases in Latin American migrants in Europe</p>		
POSTER SESSION	Opening Session	18:30 – 19:30	3rd floor – piazza Sraffa 13

Friday, 22 June 2012

PARALLEL 10	AIDS/HIV and STIs	11:00 – 13:00	Deutsche Bank Room (AS02)
	A peer education model inside the HIV prevention programmes for Roma populations and other minorities in Europe Differences in recourse to HIV testing according to migration origin in the Paris metropolitan area in 2010 Health management and HIV prevention for migrants in Europe. Evaluation results of three years of capacity building using AIDS & Mobility Europe's key technology Migrants and Sexually Transmitted Infections (STIs): a true link? Stigmatizing attitudes and beliefs towards HIV/AIDS among immigrants living in Portugal		
PARALLEL 11	Cultural and Linguistic Mediators	11:00 – 13:00	Room N03
	Bilingual mediators in health care: how different mediation practices shape the learning environment Drawing a fine line: the subtle difference between intercultural and interlinguistic mediators in Spanish medical settings Health and social care professionals' utilisation and understanding of the role of the professional interpreters in Irish health care settings Health interpretation services in Denmark and Scotland: a cross-national comparison of two European countries Language barriers and the use of interpreters in the public health services in Oslo. A questionnaire-based survey		
PARALLEL 12	Health Policies and Management	11:00 – 13:00	Room AS01
	Access to A&E departments by migrant populations Access to health services of undocumented migrants and xenophobic attitudes in EU countries Clinically important barriers to quality of hospital care for ethnic minority patients. Experience from the first 3 years of The Migrant Health Clinic at Odense University Hospital, Denmark Emergency department utilisation for non-urgent care: are there differences between immigrants and native patients? Mapping access to health care services by migrants in Italy: evidence and recommendations		
PARALLEL 13	Health Status of Migrant Women	11:00 – 13:00	N02
	Citizenship and mother's educational level effects on pregnancy assistance, perinatal outcomes and hospital access in the first year of age in Emilia-Romagna region Citizenship, education and occupational status in pre- and post-partum care Differences in quality of antenatal care provided by midwives to Dutch low-risk pregnant women in different ethnic groups Factors affecting the use of prenatal and postnatal care by migrant women of non-western immigrant origin in industrialised western countries Maternity care assistance for migrants in the Netherlands		
PARALLEL 14	Migration and Youth Health Status in Comparative Perspective	11:00 – 13:00	Room AS03
	Family structure, maternal migration status and childhood health: evidence from the UK Low birthweight among immigrants in England and Australia Multiracial children and low birth weight in the United States and the United Kingdom The role of migration in the development of depressive symptoms among Latino immigrant parents and children Family structure, maternal migration status and childhood health: evidence from the UK		

PARALLEL 15	Cross-Cultural Approach	16:30 – 18:30	Room N30
	<p>Barriers and facilitators to culturally-sensitive paediatrics: formulation and findings from a pilot study in a Scottish urban Accident and Emergency Department</p> <p>Cross-cultural adaptation and the psychometric qualities of the De Jong Gierveld loneliness scale in elderly migrants</p> <p>Ethnic differences in prescription of anti-asthmatics for children and adolescents: a nationwide study</p> <p>Globalisation, migration and chagas disease: combining social epidemiology with an anthropological approach to face complexity</p> <p>Welcome is mediation: how to ensure equity and respect for diversity in the network for health services in Ferrara and province</p>		
PARALLEL 16	Health Policies and Management	16:30 – 18:30	Room N31
	<p>ETHEALTH project. Helping policy-makers for a migrant-friendly health system: the case-study of Belgium</p> <p>Research into implementation strategies to support patients of different origins and language background in a variety of European primary care settings</p> <p>Some preliminary findings from a grounded theory study exploring how nurses and midwives in Ireland care for a culturally diverse population</p> <p>The challenges of migration within health, nursing and care</p> <p>The migrant health guide. A tool to support health care professionals caring for migrants in the UK</p>		
PARALLEL 17	Health Policies and Management	16:30 – 18:30	Room N32
	<p>Empowerment and participation in knowledge share of Roma people in West Sweden</p> <p>Negotiating multiple positions in co-ordinating health care service with ethnic minorities</p> <p>Public policies for the right to health of Roma and Sinti people: the case of the Tuscany Region</p> <p>Sonnenberger Guidelines: the integration of migrants in therapeutic processes and psychiatric help systems in Europe</p> <p>The MiMi Programme as a key technology for social inclusion and integration. Health, education and integration with migrants for migrants</p>		
PARALLEL 18	Health Status of Migrant Women	16:30 – 18:30	Room N33
	<p>Female Genital Cutting in home countries and among African immigrant population: the case of Italy</p> <p>Migrating FGM: Evidences of Change in Gender, Body, and Identity</p> <p>The approach of health care services to the Female Genital Mutilation practice according to the therapeutic, prevention and salutogenic models: a regional research project coordinated by the Bologna Local Health Authority</p> <p>The health segregation of prostitutes in Italy</p> <p>The Italian project "Prevention of induced abortion among immigrant women"</p>		
PARALLEL 19	Health Status of Migrant Citizens in Europe	16:30 – 18:30	Room N34
	<p>Here to stay: people with learning disabilities from new migrant communities in England</p> <p>HIV risk behaviours and preventive practices among immigrants in Portugal</p> <p>Is migrant status a determinant of health independent of socio-economic status? A first analysis of eight European countries</p> <p>Mental health effects of the financial crisis in migrant workers in Spain (ITSALII project)</p> <p>Mortality from infectious diseases among refugees and immigrants compared with that among native Danes: a historical prospective cohort study</p>		
PARALLEL 20	Health Status of Migrant Citizens in Europe	16:30 – 18:30	Room N35
	<p>Cancer incidence among Turkish, Chilean and North African first-generation immigrants in Sweden compared to the residents in countries of origin and the native Swedes</p>		

Effect of parental migration nutritional status, physical activity and overweight background on childhood
Health behaviour in a social context – local, national and transnational perspectives on mammography screening
Immigrant health: an Italian effort to describe and monitor through a common analysis methodology
National board "Immigrants and Health Services"

PARALLEL 21 **Health Status of Migrant Citizens in Europe** **16:30 – 18:30** **Room N36**

Ethnic inequalities in health and disease in Scotland: the Scottish health and ethnicity linkage study (SHELS) a retrospective cohort of 4.65 million people
Ethnicity, migration and the 'social determinants of health' agenda
Increased risk of cardiovascular diseases among patients with multiple sclerosis
Is access to heart intensive care in Sweden after first time myocardial infarction independent of sex, socioeconomic position and country of birth of the patient?
Understanding experiences of participating in the PODOSA (Prevention Of Diabetes and Obesity in South Asians) trial: qualitative study

PARALLEL 22 **Mental Health** **16:30 – 18:30** **Room N37**

Basic education in collaboration on immigration, mental health and trauma
Depression in Belgium: a differential role for locus of control in first and second generation migrants?
Migrant integration and depression in 23 European countries: a cross-national multilevel perspective
The risk of suicide in patients with hematological malignancies in Sweden: the role of immigration
Use of private practicing psychiatrist and psychologist in relation to mental health status for immigrants and ethnic Danes

Saturday, 23 June 2012

PARALLEL 23	Cross-Cultural Approach	9:00 – 11:00	Room N30
	Barriers and facilitators to culturally-sensitive paediatrics: formulation and findings from a pilot study in a Scottish urban Accident and Emergency Department Experiences of community-based doula support for immigrant women in Sweden Intercultural “Reading for Growth” Physiotherapy in an intercultural setting through the eyes of the professional: a qualitative study Working with silences: a new framework for researching the health of minority ethnic and migrant communities		
PARALLEL 24	Health Policies and Management	9:00 – 11:00	Room N31
	“It is a challenge to do it the right way”: an interpretive description of caregivers’ experiences in caring for migrant patients in Northern Sweden Health care for immigrants in Europe: is there still consensus among country experts about principles of good practice? Observatory on pharmaceutical prescription to immigrant population: characterisation of cohorts and analysis of regional variability Systematic analysis of the (mis)match between supply and demand for healthcare and welfare for elderly migrants in the Netherlands; a mixed methods design The health of Latin American migrants in Europe: a policy review		
PARALLEL 25	Health Policies and Management	9:00 – 11:00	Room N32
	An analysis of the role of migrant policies on the determinants of health inequalities in the EU Health of migrants and travel medicine: is that the correct approach to protect VFRs? Local health policies for migrants: building tools for their impact analysis Public health challenges among migrants and ethnic minorities in Norway - an analysis of health policies SYMBOL-study: Cross cultural dementia screening		
PARALLEL 26	Health Status of Migrant Women	9:00 – 11:00	Room N33
	Absence of cervical cancer screening according to migration characteristics for women in the Paris metropolitan area in 2010 Cervical cancer risk and foreign women’s equity of access to healthcare services and treatment in the Reggio Emilia Province, Italy Cervical screening uptake in Polish migrants to Lothian, Scotland: comparing with Polish data Risk factors of HPV infections and cervical lesions in migrant women: a sub-analysis from the VALHIDATE study Testing different models to improve access of migrant women to the cervical cancer screening programme		
PARALLEL 27	Health Status of Migrant Citizens in Europe	9:00 – 11:00	Room N34
	Attitudes towards HPV vaccination among Arab ethnic minority in Denmark – A qualitative study Health needs of migrants and asylum seekers in immigration detention facilities in Northern Greece: the experience of Médecins Sans Frontières Nurse led culturally-appropriate patient education can reduce blood pressure and increase lifestyle adherence among uncontrolled hypertensive patients of African origin Outpatients’ department for migrants: experience of the medical centre of the Fondazione Fratelli di San Francesco d’Assisi in Milan The frequency of infectious diseases in migrants to a Western European country: a population based study		

PARALLEL 28	Health Status of Migrant Citizens in Europe	9:00 – 11:00	Room N35
	<p>Breastfeeding among migrant women: an analysis in a region of central Italy, 2006-2010</p> <p>Cardiovascular risk factors in Latin-American migrants in Spain</p> <p>Ethnic variations in unplanned readmission rates and excess length of hospital stay. A nationwide record linked retrospective cohort study</p> <p>Latin American migrant's health seeking behaviours in Europe: a systematic review of the literature</p> <p>Nutritional criticalities among low income populations and migrants in Europe</p>		
PARALLEL 29	Health Status of Migrant Citizens in Europe	9:00 – 11:00	Room N36
	<p>Adapting behaviour change interventions for ethnic minority populations: a systematic review</p> <p>Differences in timely antenatal care between first and second generation migrants</p> <p>Migrants in Europe: social determinants of health, barriers to healthcare and health status</p> <p>Prevention of AIDS among Sub-Saharan Africans living in Vienna with the resources of communities</p> <p>Public health emergencies and irregular migration in the Mediterranean countries</p>		
PARALLEL 30	HRC Building: Need for Health Professionals Trained to Work in a Multicultural Environment	9:00 – 11:00	Room N37
	<p>Are cultural competences contagious? A social network analysis of cultural competences among health professionals in hospitals and primary care services</p> <p>Challenges in promoting culturally competent care to meet the healthcare needs of migrant populations</p> <p>Do exposures to migration contribute to the development of cultural competences among healthcare professionals?</p> <p>Posttraumatic stress disorder and migration: an overview of issues and research directions</p> <p>The role of intercultural competence in health and psychosocial care of migrants and minorities</p>		
PARALLEL 31	Occupational Safety and Health	9:00 – 11:00	Room N38
	<p>A comparative study of decision-making processes concerning labour migrant health policies in Germany and Israel</p> <p>A comparison between migrants and Italians: risk factors distribution for occupational injury in agriculture in the provinces of Milan and Lodi</p> <p>Job insecurity and migrant workers: an analysis of injury risk by job characteristics and length of contract</p> <p>Occupational health and migrant workers: a clinical-epidemiological experience in Northern Italy</p> <p>Occupational injuries and migrant workers: scientific evidence and practical implications from an experience in Italian foundries</p>
