

Border Health Checks for Migrants and Refugees Country workshop

Sarajevo, Bosnia and Herzegovina, 5-6 February 2019

Objective

At the end of the workshop, the representatives of the institutions of Bosnia and Herzegovina will be able to elaborate, on the basis of qualified and quantified needs, a *policy framework for action* that allows to fill the gap identified in the legal, financial, organizational and personnel context, for the full implementation of the Italian guidelines on border checks, as adapted to the local situation.

Output

The expected output is a Country Assessment table elaborated in a cooperative way on the implementation of specific health measures for migrants. These measures originate from the Italian guidelines on border checks, as adapted to the local context.
